

IMAGINARIUM

Summer
Ages Three, Four & Five

*Where Science, Art, Nature, and the Imagination
bloom in great discovery and creativity.*

ART • SCULPTURE • MUSIC • SCIENCE • CREATIVE MOVEMENT
YOGA • WATER PLAY • NATURE ADVENTURE

Join us for a celebratory and joyous summer through a multifaceted approach to enrichment fused with composing 3D art installations of the environments we inhabit and explore throughout the globe. **At Studio, nothing is as important as care and conservation of the Earth.** Through researching plants, animals, and creatures of our beautiful biome, we celebrate the wonder and festivity of nature. Multi-media approaches involving collage, textiles, mobiles, and various mediums of sculpture fill Studio with uniquely imaginative worlds. Together as a summer community of friends each week a dedicated theme launches us into a week-long project **nurturing exciting and collaborative creativity.**

Children enjoy daily adventures in water play and nature adventure.

We Are the Studio *IMAGINARIUM*
